

KB Seafood Co.

Foodservice
Catalogue

Why choose KB Seafood Co for your business?

Here at KB we have actively engaged in a research project, where we have identified that the hospitality industry is at a point of transformation, impacted by economic pressures and social change. We not only want to get to the core of what drives the influence of success for you as a business, but also, what matters to your end user and how KB can elevate our services and product offerings that satisfy your clients and keep them coming back.

Sustainability

We have also recognised sustainable seafood means you can track your product, endorse it on your menu with confidence and provide elite menu knowledge when educating your clientele. We have provided key information which will allow you to present your menu in the most prestigious and commendatory fashion.

Personable & Reliable Relationships

Our representatives are committed to ensuring the timely and successful delivery of Foodservice solutions. They hold particular skills in forecasting and tracking each account metric. Our representatives are instrumental in the consistency of Foodservice communications - advising Chefs and the Procurement of any vital stock, production or delivery movements in real-time responses.

Certifications

Marine Stewardship Council (MSC)

The Marine Stewardship Council (MSC) is an international non-profit organisation recognising and rewarding efforts to protect oceans and safeguard seafood supplies for the future.

Aquaculture Stewardship Council (ASC)

The Aquaculture Stewardship Council (ASC) is the world's leading certification scheme for farmed seafood. The ASC assists in minimising the negative impacts on the environment, through developing strict standards and requirements covering the potential impacts of aquaculture.

Best Aquatic Practices (BAP)

Best Aquatic Practices (BAP) is a proven third-party aquaculture program. This organisation has been improving the performance of the aquaculture supply chain and growing the global supply of responsibly farmed seafood.

Good Aquaculture Practice at Every Stage of Production (GLOBALG.A.P)

GlobalGAP is one of the most internationally recognised non-governmental organisations that sets voluntary standards for the certification of agriculture products around the globe. The GlobalGap Aquaculture standard sets strict criteria for five key areas, namely legal compliance; food safety; workers' occupational health, safety and welfare; animal welfare; and environmental and ecological care.
